Instructions
o Cut along solid lines, fold along dotted lines
o On inside disc, fold star flaps down
o Place inside disc and outside disc together
o Push star flaps of inside disc, through centre of outside disc
o Fold flaps all the way backwards and flatten (these flaps holds the 2 discs together)
o Turn over, put a TINY drop of glue on each flap
o Position small circle over flaps and press down
o Rotate the inner ring a few times in case glue oozes out and glues the two discs together
